## Coastside Fire Protection District Fire New El Granada Station 41 Virtual Grand Opening Announced

**El Grenada, CA** – The Coastside Fire Protection District would like to invite the community to attend the virtual grand opening of the new El Grenada Fire Station 41. This state-of-the-art facility is just down the street from the current station on Obispo Road in El Grenada. This 2,425-square-foot, 30-foot-tall facility will modernize and triple the size of the current station.

This fire station will have a huge impact on the safety of the San Mateo County Coast. It offers increased fire capabilities, more apparatus storage, and more living space for fire personnel in a fire-prone area of San Mateo County.

Due to COVID 19 guidelines, this event will be virtual as large public gatherings are not permitted. The virtual grand opening will be held on Wednesday, November 18, 2020 at 10:00am. It can be viewed live on Twitter at [@CALFIRECZU](https://twitter.com/CALFIRECZU), and on Facebook at <https://www.facebook.com/CALFIRECZUSanMateoSantaCruz>. If you are a member of the media and would like to attend this grand opening in person, please contact Cecile Juliette at (650) 308-9081.
