Applicable Dates and Periods

	June 30, 2022 Employer Fiscal Year
■ Measurement date	June 30, 2021
■ Measurement period	July 1, 2020 to June 30, 2021
■ Actuarial valuation date	June 30, 2020

Basis of Report

This report presents employer-specific amounts for reporting in accordance with Governmental Accounting Standards Board Statement No. 68 (GASB 68) for CalPERS public agency cost-sharing plans. Our calculations are based on information provided in actuarial valuation reports prepared by CalPERS and on the June 30, 2021 "Schedule of Employer Allocations for Components of Net Pension Liability and Schedule of Collective Pension Amounts", prepared by CalPERS and audited by BDO. We have followed the methodology described in that report and in other CalPERS publications including the GASB 68 Guide for Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plans. It was not part of the scope of this project, nor was information available, to review the census data, actuarial calculations or the actuarial assumptions used to prepare those reports. CalPERS reports used for our calculations are available at:

<https://www.calpers.ca.gov/page/employers/actuarial-services/gasb>

Additional information to be presented in each agency's Notes and RSI can be found on CalPERS website in the CalPERS Risk Pool reports as of the June 30, 2021 Measurement Date and CalPERS Annual Comprehensive Financial Report:

<https://www.calpers.ca.gov/docs/forms-publications/gasb-68-accounting-valuation-miscellaneous-risk-pool-2021.pdf>

See page 20 for supporting detail.

Plan Description *

The Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan or PERF C) is administered by the California Public Employees' Retirement System (the System or CalPERS). The Plan consists of a miscellaneous risk pool and a safety risk pool, which are comprised of individual employer miscellaneous and safety rate plans, respectively. Individual employers may sponsor more than one miscellaneous and safety rate plan. Each individual employer rate plan generally has less than 100 active members.

The Plan was established to provide retirement, death and disability benefits to public agency rate plans with generally less than 100 active members. The benefit provisions for PERF C employees are established by statute. A full description regarding the number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information for the respective rate plan is listed in the respective rate plan's June 30, 2020 Annual Valuation Report (funding valuation). Details of the benefits provided can be obtained in Appendix B of the funding valuation report. This report and CalPERS' audited financial statements are publicly available reports that can be found on CalPERS' website at <https://www.calpers.ca.gov/page/forms-publications>

* This description is from the CalPERS report:

<https://www.calpers.ca.gov/docs/forms-publications/gasb-68-public-agency-schedules-2021.pdf>

Net Pension Liability Assumptions *

The collective total pension liability for the June 30, 2021 measurement period was determined by an actuarial valuation as of June 30, 2020, with update procedures used to roll forward the total pension liability to June 30, 2021. The collective total pension liability was based on the following assumptions:

- | | |
|------------------------------------|--|
| ■ Discount Rate | 7.15% |
| ■ Inflation | 2.50% |
| ■ Salary increases | Varies by Entry Age and Service |
| ■ Mortality | Derived using CalPERS' Membership Data for all Funds. The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of Scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website |
| ■ Post-retirement benefit increase | Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies |

* These assumptions are from the CalPERS report:

<https://www.calpers.ca.gov/docs/forms-publications/gasb-68-public-agency-schedules-2021.pdf>

Note Disclosures

Long-Term Expected Rate of Return *

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The expected real rates of return by asset class are as follows:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Real Return¹ Years 1 - 10²</u>	<u>Real Return¹ Years 11 + ³</u>
Public equity	50.00%	4.80%	5.98%
Fixed income	28.00%	1.00%	2.62%
Inflation assets	-	0.77%	1.81%
Private equity	8.00%	6.30%	7.23%
Real assets	13.00%	3.75%	4.93%
Liquidity	1.00%	-	-0.92%

* This information is from the CalPERS report: <https://www.calpers.ca.gov/docs/forms-publications/gasb-68-public-agency-schedules-2021.pdf>

¹ Figures are based on previous 2017 ALM.

² An expected inflation of 2.00% used for this period.

³ An expected inflation of 2.92% used for this period.

Note Disclosures

Discount Rate *

The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

* This description is from the CalPERS report:

<https://www.calpers.ca.gov/docs/forms-publications/gasb-68-public-agency-schedules-2021.pdf>

Required Supplementary Information

**Schedule of District's Proportionate Share
of the Plan's (PERF C) Net Pension Liability**

	Fiscal Year End	
	6/30/22	6/30/21
■ Measurement Date	6/30/21	6/30/20
■ District's proportion of the net pension liability	0.15241%	0.11949%
■ District's proportionate share of the net pension liability	\$ 8,242,924	\$ 13,000,748
■ District's covered payroll *	-	-
■ District's proportionate share of the net pension liability as a percentage of covered payroll	N/A	N/A
■ Plan's fiduciary net position as a percentage of the plan's total pension liability **	88.29%	75.10%

* For the year ending on the measurement date.

** Supporting detail on page 17.

Required Supplementary Information

Schedule of the District's Contributions

Contributions for the fiscal year ending:	6/30/22	6/30/21
■ Actuarially determined contribution	\$ 1,392,527	\$ 1,350,320
■ Contributions in relation to the actuarially determined contribution	1,392,527	1,350,320
■ Contribution deficiency (Excess)	-	-
■ District's covered payroll *	-	-
■ Contributions as a percentage of covered payroll	N/A	N/A

* For the fiscal year ending on the date shown.

Actuarially Determined Contribution Assumptions *

■ Valuation Date	June 30, 2019
■ Actuarial cost method	Entry age normal cost method
■ Amortization method	Varies by date established and source. May be level dollar or level percent of pay and may include direct rate smoothing
■ Remaining Amortization Periods	Differs by employer rate plan but not more than 29 years
■ Asset valuation method	Market value of assets
■ Inflation	2.50%
■ Salary increases	Varies by Entry Age and Service
■ Discount Rate **	7.00% (net of administrative expenses)
■ Mortality	Derived using CalPERS' Membership Data for all Funds. The post-retirement mortality rates include 15 years of projected on-going mortality improvement using 90 percent of Scale MP 2016 published by the Society of Actuaries

* From the CalPERS reports (Appendix A):

Note "Changes" for Risk Pool deferrals equals total change from prior year to current year. "Changes" for employer-specific deferrals includes recognition of previous deferral or establishment of new deferral.

Summary of Balances

	Fiscal year ending	
	6/30/2021	6/30/2022
■ Measurement date	6/30/2020	6/30/2021
■ Total pension liability	\$ (42,752,377)	\$ (42,941,221)
■ Fiduciary net position	<u>29,751,629</u>	<u>34,698,297</u>
■ Net pension (liability)/asset	(13,000,748)	(8,242,924)
■ Deferred (inflows) of resources	(781,317)	(5,976,346)
■ Deferred outflows of resources	<u>2,646,725</u>	<u>2,787,811</u>
■ Net balance sheet impact	(11,135,340)	(11,431,459)

Deferred Outflows includes contributions after the measurement date.

Journal Entries

The Journal Entries from pages 33-39 are shown on the employer's plan-wide basis and comply with GASBS 68 rules. However, for your convenience, pages 41-46 show alternative journal entries. Deferred inflows and outflows in this section are recorded separately for Miscellaneous and Safety plans. Please note, while the net of the deferrals is the same under both approaches, the sum of Safety and Miscellaneous deferrals will likely not match corresponding plan total numbers. Below is the reconciliation of the two approaches:

	Miscellaneous		Safety		Total	
	Debit	Credit	Debit	Credit	Debit	Credit
■ Total plan *						
Deferred Outflows					\$ 394,742	\$ (295,863)
Deferred (Inflows)					<u>44,416</u>	<u>(5,239,445)</u>
Net					-	(5,096,150)
■ Alternative Approach **						
Deferred Outflows	\$ 15,347	\$ (8,968)	\$ 384,948	\$ (289,045)	\$ 102,282	\$ -
Deferred (Inflows)	<u>4,616</u>	<u>(210,208)</u>	<u>42,332</u>	<u>(5,035,172)</u>	<u>-</u>	<u>(5,198,432)</u>
Net					-	(5,096,150)

* See page 35 for details.

** See page 43 for details.
